SOMOGYI ELEKTRONIC®

Before using the product for the first time, please read the instructions for use below and retain them for later reference. The original instructions were written in the Hungarian language.

Modern, table lamp with touch buttons. You can choose between cold white (5000 K) and warm white (2700 K) lighting, moreover by using the two kinds of LEDs together, natural colour temperature is available.

Brightness is dimmable in 5 stages. The lamp memorizes the settings and will always switch on following the last ones.

The room temperature (°C / °F), the current time (12h/24h), alarm time and date appears on the LCD display with blue backlight, which is built-in to the shaft of the lamp. The shaft of the lamp is bendable, rotatable and flexible.

Power supply is provided by the included USB adapter.

PARTS OF THE LUMINAIRE

- 1. base of the lamp • 2. shaft of the lamp • 3. head part of the lamp with LEDs • 4. touch buttons • 5. LCD display • 6. power adaptor socket • 7. power cable • 8. USB power adaptor

INSTALLATION, USE

Put 2 pcs AA size, 1.5 V batteries to the battery holder, located at the bottom of the luminaire. These batteries ensures the operation of the clock. Included USB power adaptor can provide the power supply of lamp and the backlight of the LCD display.

FUNCTIONS OF TOUCH BUTTONS

- M – 14 pcs warm white LEDs/ 19 pcs cold white LEDs / all LEDs
- ⊕ – lighting on/off switch
- ^ – increasing brightness
- v – decreasing brightness

FUNCTIONS OF THE BUILT IN CLOCK TOUCH BUTTONS

Mode – switch between displaying of current time (TIME) and alarm time (ALARM)

Set – clock setting: hour/minute/year/month/day

– alarm setting: hour/minute/repeating alarm in minutes/alarm melody

Up – stepping the values up when setting the clock or alarm. When the time is displayed, you can switch between 12h and 24h time display. In case of 12-h time display, AM will indicate the time before noon and PM after noon. In case of display of alarm time, alarm can be activated with this button. Active alarm function is indicated by Z symbol.

Down – stepping the values down when setting the time or alarm. You can switch between displaying °C or °F when the clock is displayed. Alarm can be activated with this button, when the alarm time is displayed. Active alarm function is indicated by Z symbol.

ALARM

Activated alarm function (Z symbol is visible) will wake at the set alarm time, with the pre-set melody (8 tones). Alarm will last 1 minute, then so much pause will follow it, what you set as repeated section of alarm (1-60 minutes). If you push one of the buttons of the clock during the alarm, then it will wake you up again only on the next day at the set alarm time.

CLEANING AND MAINTENANCE

In order to ensure optimum functioning of the luminaire, the unit may require cleaning at least once a month, depending on the manner of use and degree of contamination.

1. Power off the luminaire before cleaning!

2. Use a slightly moistened cloth to clean the outer surface of the luminaire. Do not use any aggressive cleaners. Avoid getting water inside the unit and on the electric components!

WARNINGS

- Make sure, the appliance has not damaged during transport!
- The lamp may only be used in dry, indoor conditions!
- The lamp may only be operated with the supplied power adaptor. The power voltage of the lamp is 5 V --- , do not differ from it!
- LED light source of the luminaire is not replaceable. At the end of the lamp lifespan the entire luminaire should be destroyed.
- The luminaire is not suitable for looping-in installation.
- Pay attention to the polarity by battery replacement!
- Do not use different kinds of batteries and/or used and new batteries together!
- Do not open, burn and short circuit the batteries!
- It is forbidden to charge the batteries which are not rechargeable! Risk of explosion!

Do not stare into the light of the LED!

In the event that the power cable should become damaged, it should only be replaced with cables obtained from the manufacturer or its service facility.

Waste equipment must not be collected separately or disposed of with household waste because it may contain components hazardous to the environment or health. Used or waste equipment may be dropped off free of charge at the point of sale, or at any distributor which sells equipment of identical nature and function. Dispose of product at a facility specializing in the collection of electronic waste. By doing so, you will protect the environment as well as the health of others and yourself. If you have any questions, contact the local waste management organization. We shall undertake the tasks pertinent to the manufacturer as prescribed in the relevant regulations and shall bear any associated costs arising.

SPECIFICATION

power supply: USB power adaptor is included: PRI: 230 V~ / 50 Hz • SEC: 5 V --- / 1,5 A
.....	battery for the clock: 2 x 1,5 V (AA), not included
length of USB cable: 150 cm
power: 7 W
brightness: 600 lm
LEDs: 14 pcs warm white and 19 pcs cold white SMD LEDs
colour temperature: 2700 K / 5000 K
power factor: >0,5
operating temperature: +10 - +40 °C
weight: 890 g
dimensions: 134 x 350 x 360 mm

SOMOGYI ELEKTRONIC®

Pre upotrebe pročitajte uputstvo i sačuvajte ga. Originalno uputstvo je pisano na mađarskom jeziku.

Moderna lampa sa prekidačem na dodir. Podesiva hladno bela (5000 K) i toplo bela (2700 K) svetlost, kombinacijom obe vrste LED dioda dobija se prirodno svetlo. Podesiva jačina svetlosti (5 stepena). Lampa pamti podešavanja i nakon ponovnog uključenja svetleće sa predhodnim zadatim parametrima. Na LCD displeju sa plavim pozadinskim osvetljenjem koje je ugradeno u stubu lampe može se očitati temperatura prostorije (°C / °F), tačno vreme (12h/24h) ili vreme buđenja i datum. Stub lampe je savitljiv, fleksibilan i okretljiv. Lampa se napaja preko priloženog USB adaptera.

DELOVI LAMPE

1. postolje • 2. stub lampe • 3. glava lampe sa LED diodama • 4. tasateri na dodir • 5. LCD displej • 6. utičница za napajanje • 7. kabel za napajanje • 8. USB strujni adapter

PUSTANJE U RAD, UPOTREBA

U postolje lampe postavite dve olovka baterije AA 1,5 V. Ova baterija služi za napajanje sata. USB strujnim adapterom se obezbeđuje napajanje lampe i pozadinsko osvetljenje LCD displeja.

FUNKCIJE TASTERA NA DODIR

- M – 14 kom. toplo belih LED dioda / 19 kom. hladno belih LED dioda / sve LED
⊕ – uključivanje i isključivanje osvetljenja
△ – pojačavanje jačine svetlosti
▼ – smanjivanje jačine svetlosti

FUNKCIJE TASTERA UGRADENOG SATA

- Mode – promena ispisu sata (TIME) i ispisu vremena buđenja (ALARM)
Set – podešavanje sata: sat/minut/godina/mесец/dan
– podešavanje budilnika: sat/minut/ponavljanje buđenja u minutama /melodija
Up – Prilikom podešavanja sata ili budilnika povećava vrednost. U režimu prikaza sata odabir ispis 12h ili 24h. U slučaju prikaza 12h ispis AM označava pre podne i PM posle podne. U slučaju prikaza budilnika ovaj taster služi za aktivaciju budilnika. Budilnik je aktivan ako je na displeju simbol Z.
Down – Prilikom podešavanja sata ili budilnika smanjuje vrednosti. Prilikom prikaza sata ovim se tasterom može menjati ispis temperature °C ili °F. U slučaju prikaza budilnika ovaj taster služi za aktivaciju budilnika. Budilnik je aktivan ako je na displeju simbol Z².

BUDILNIK

Ako je budilnik aktivan (Z² ispis) u unapred podešeno vreme započinje buđenje sa definisanim melodijom (8 melodija). Buđenje traje 1 minut nakon čeka počinje prethodno podešena pauza (1-60 minuta). Ako u toku buđenja pritisnemo bilo koji taster sata, buđenje će da prestane i ponovo će se aktivirati naredni dan u isto vreme.

ČIŠĆENJE, ODRŽAVANJE

Radi optimalnog rada lampu treba čistiti prema potrebi, minimalno jednom mesečno.

- Pre čišćenja isključite lampu!
- Blago nakvašenom krpom prebršite spoljni deo lampe. Ne koristite agresivna hemijska sredstva! Voda ne sme da ucuri u lampu i na električne komponente!

NAPOMENE

- Uverite se da uredaj nije oštećen prilikom transporta!
- Lampa je predviđena za rad isključivo u suvim zatvorenim prostorijam!
- Lampa se iz mreže sme napajati samo preko priloženog USB adaptera. Radni napon lampe je 5 V ~, od kojeg se ne sme odstupiti!
- Izvor svetlosti u lampi nije zamjenljiv. Nakon isteka radnog veka čitava lampa se smatra elektronskim otpadom.
- Lampa nije pogodna za redno povezivanje.
- Prilikom postavljanja baterija obratite pažnju na polaritet!
- Istovremeno koristite samo baterije istog tipa i napunjenošt.
- Baterije se ne smiju rastavljati, bacati u vatru ili kratko spojati!
- Nepunjlive baterije je zabranjeno puniti! Opasnost od eksplozije!

Ne gledajte u LED izvor svetlosti!!

Ukoliko se ošteći priključni kabel, oštećeni priključni kabel se može zamjeniti samo potpuno identičnim, nabavljenog od uvoznika ili njenog predstavnika!

Uredaje kojima je istekao radni vek sakupljajte posebno, ne mešajte ih sa komunalnim otpadom, to oštećuje životnu sredinu i može da naruši zdravje ljudi i životinja! Ovakvi se uređaji mogu predati na reciklažu u prodavnicama gde ste ih kupili ili prodavnicama koje prodaju slične proizvode. Elektronički otpad se može predati i određenim reciklažnim centrima. Ovim štitite okolinu, svoje zdravje i zdravlje svojih sunarodnika. U slučaju nedoumica kontaktirajte vaše lokalne reciklažne centre. Prema važećim propisima prihvatom i snosimo svu odgovornost.

TEHNIČKI PODACI

- napajanje: u obimu isporuke USB strujni adapter: PR1: 230 V~ / 50 Hz SEC: 5 V ~ / 1,5 A
..... baterija sata: 2 x 1,5 V (AA), nije u sklopu
dužina USB kabела: 150 cm
snaga: 7 W
jačina svetlosti: 600 lm
LED: 14 kom. toplo belih i 19 kom. hladno belih SMD LED dioda
temperatura boje svetlosti: 2700 K / 5000 K
faktor snage: >0,5
radna temperatura: +10 - +40 °C
masa: 890 g
dimenzije: 134 x 350 x 360 mm
